

# WEAVER RELIEF INITIATIVE

## Weaver Relief Initiative

### ABOUT THE WEAVER RELIEF INITIATIVE

The City of Winston-Salem through Experiment in Self-Reliance (ESR) now has funds available to assist people and families affected by the Weaver Fertilizer Plant Fire.

### REIMBURSABLE EXPENSES

Funds can be used to:

- Help cover hotel expenses (four-night maximum);
- Food;
- Lost wages;
- Other expenses related to the evacuation, such as air filter replacements

Only expenses incurred from 9 pm January 31 through noon February 4 will be reimbursed.

### DOCUMENTATION

Eligible residents should bring receipts and other documentation of their expenses or lost wages to the application fair or to their scheduled appointment. People with receipts or documentation of past purchases will be given a maximum of up to \$1000 to help with expenses, no matter the actual expenses and regardless of how many people live at that address.

### ELIGIBILITY

- Funds serve people living or working within a one-mile radius of the Weaver Fertilizer Plant who incurred expenses related to the Weaver Plant fire
- Anyone who receives reimbursement for their expenses from any other public or private source is not eligible to receive assistance through this initiative
- Funding is limited to people with low-moderate income under the guidelines established by the US Department of Housing and Urban Development. Income limits vary by household size.

### NEXT STEPS

ESR will start accepting applications during an open application fair from 5 pm to 8 pm on Wednesday, March 9 at the Fairgrounds Home and Garden Building. Appointments may also be made online through our website at [www.eisr.org](http://www.eisr.org) for anyone who is unable to attend the application fair on March 9.

### ABOUT US

MISSION: Empower social and economic self-reliance for the working low income and homeless

VISION: ESR reduces poverty and homelessness in our community

VALUES: ESR is a judgment-free zone full of respect for all in order to help everyone achieve their fullest potential
